Welcome

to the NONPROFIT NETWORK Southwest Washington's CONNECTIONS!

This is our second Connections event and we are thrilled with the community response. I hope after you've had a chance to look through our 2010 first edition of this catalogue you'll see why. Each year we hope to add to the number of companies that are included, and have a great many idea for other resources that will make this a wonderful year-round reference publication for nonprofits.

We hope the information offered here goes beyond simply a factual picture of a particular company and paints a broader portrait of nonprofits that serve Southwest Washington. Nonprofits are an integral part of our community - most are often unseen, but they contribute to our economy at the same time that they support vital services and wonderful benefits to residents of every demographic.

No event like this happens in isolation, it is the work of many dedicated people. The Nonprofit Network board, the volunteers and people behind the scenes - thank you!! The amazing presenters, experts and our friends in foundations across the area - all are here providing their expertise, wisdom and time in the shared belief that our nonprofit community does amazing work. Hats

off to such a wonderful group! Our exhibitors, in business and nonprofit, are here because they understand and respect the work of nonprofits. They each provide valuable services and products that can help strengthen the accomplishments of local groups.

I want to particularly thank the sponsors of this year's CONNECTIONS that have provided resources to better serve our communities' nonprofit organizations. The NONPROFIT NETWORK Southwest Washington greatly appreciates our strategic partnership with United Way of the Columbia-Willamette. We appreciate the support of US Bank, 360Marketplaces.com, Wide Angle Studios and additional support from AlphaGraphics, Davidson Insurance, and the Hilton Vancouver. Thank you also to Heffernan Insurance and Waddell & Reed.

As always, I welcome and appreciate any comments or suggestions you might have on how we can continue to improve this and all of our resource support through the NONPROFIT NETWORK Southwest Washington.

My very best wishes for great connections in 2010!

In 2009, the charities filing Form 990 with the Internal Revenue Service reported approximately \$1.4 trillion in revenue and reported holding nearly \$2.6 trillion in assets. Nonprofit institutions serving households (largely charities) constituted more than 5% of GDP in 2008.

The nonprofit sector has over \$2 trillion in assets (excluding foundations). If it were a country, the nonprofit sector would have the seventh largest economy in the world.

Empower Up

Empower Up is a 501(c)(3) non-profit organization that diverts used electronics from the waste stream in order to empower the citizens of our community. Empower Up provides free computer technology education and free Internet access to the public. Empower Up accomplishes this by working with our partners: Clark County, The City of Vancouver, Clark College, The Salvation Army and Waste Connections to divert usable computers and electronics from the waste stream and re-purpose them into the community.

Empower Up provides free resources to help those in need get access to technology and the Internet. Regularly scheduled free computer classes include Intro to the Web and Intro to Google Docs. Each month, Empower Up hosts PC and MAC clinics that offer free help for computer problems to the public. Empower Up also provides free public Internet access terminals.

Help your community recycle by bringing your used electronics to one of the regularly scheduled community collection events in Clark County! Or bring your items to the Empower Up Donation Center located in the Vancouver Market Center at 5000 E. 4th Plain, Blvd. Suite F, inside the Habitat for Humanity ReStore. High quality computer donations are tested and refurbished for distribution to families in need via our partners at Clark College and the Salvation Army. Computers not used in the partnership program and other high quality equipment donations are tested and refurbished by our volunteers for sale in the Empower Up Thrift Store. GIDI Promotions

GIDI Promotions is a full service Promotional Products Marketing entity, providing products and apparel imprinted with logos and messages. Our clients range from local small business firms to international corporations. Non-profit organizations, local schools, sports teams, and community organizations are among those I am very proud to call my clients.

While my client base is primarily in Vancouver (which is where I reside), we have a beautiful showroom in Portland (near OMSI) displaying a multitude of samples representing many of the product categories we offer. I love to have customers meet with me there but more often than not, my work/meetings take place at their location.

While I have included our website information please know that I'm always a phone call away with product knowledge, advice, and samples. I realize that it can be overwhelming and time consuming searching for ideas and/or products over the internet and that is a value that I am eager to offer.

With a representation of thousands of products, we provide a creative approach to enhancing your organization's image to communicate at events such as trade shows, conferences, sponsor contacts, thank-you's...just to name a few.

GIDI's approach to business and our personal goal with every customer is to provide an outstanding experience to the extent that you will say "Glad I Did It!" thus the name, GIDI! We aren't satisfied until you are able to say it - guaranteed.

United Way of the Columbia Willamette

Together We Can Make a Difference!

Everyone deserves opportunities to have a good life: a quality education that leads to a stable job, enough income to support a family through retirement, and good health. By improving people's lives we change our communities for the better. That's why United Way of the Columbia-Willamette is so important. We bring people, resources and ideas together to create opportunities and advance the common good. Advancing the common good is less about helping one person at a time and more about changing systems to help all of us. It's the idea that we are all connected and interdependent; the idea that we all win when a child succeeds in school, when families are financially stable, and people are healthy.

Your gift to United Way helps families and individuals with basic needs while also creating long-lasting changes by addressing the underlying causes of problems. United Way focuses on the building blocks we all need to succeed:

- EDUCATION – Preparing children to succeed in school and life
- INCOME – Moving families from poverty to financial stability
- HEALTH – Ensuring people have access to basic healthcare

It takes everyone in the community working together to create a brighter future. That's what it means to LIVE UNITED. One of the easiest ways to give is through the United Way Community Giving Campaign and payroll deductions. Employees at companies like Comcast and others, large and small, throughout Oregon are making a difference. Join us in becoming part of the solution. Give. Advocate. Volunteer. Find out how you can LIVE UNITED at www.unitedway-pdx.org.

The Columbian, the community's source of information, is the leading online and print media in Southwest Washington. We continue to reach 64% of the adults in Clark County through print and online. This translates into reaching more than 198,000 adults with your organization's message. In addition, research shows that [columbian.com](http://www.columbian.com) is the most visited local site in Clark County with nearly 32,000 local, Clark County unique visitors visiting our website each month. *The Columbian* believes in supporting community organizations through the donation of online and print advertising space and cash. Resources are focused on groups or organizations that help people in unfortunate circumstances, and on programs that positively impact the 100-year Clark County landscape to preserve and enhance the livability and character of the community. We have found that most organizations benefit more from a gift of advertising space than of cash. This space may be used to call attention to a community need, an upcoming event, or raise funds.
