The Columbian, the community's source of information, is the leading online and print media in Southwest Washington. We continue to reach 64% of the adults in Clark County through print and online. This translates into reaching more than 198,000 adults with your organization's message. In addition, research shows that [columbian.com](http://www.columbian.com) is the most visited local site in Clark County with nearly 32,000 local, Clark County unique visitors visiting our website each month. *The Columbian* believes in supporting community organizations through the donation of online and print advertising space and cash. Resources are focused on groups or organizations that help people in unfortunate circumstances, and on programs that positively impact the 100-year Clark County landscape to preserve and enhance the livability and character of the community. We have found that most organizations benefit more from a gift of advertising space than of cash. This space may be used to call attention to a community need, an upcoming event, or raise funds.
